

IOMOU Mobile Web App

IOMOU Mobile Web App for retrieval of ship inspection data from IOCIS was launched during the 18th Committee meeting of the IOMOU on Port State Control at Republic of Mauritius from 25th – 28th August, 2015. This app displays latest ship inspection details at a first instance related to ship, inspection, target factor, detention, deficiency and certificates based on input either IMO No. or Ship Name. It displays list of deficiencies when clicked on Total Deficiencies link. App also provides link to most recent ship inspections from the IOCIS. URL to access IOMOU Mobile Web App (<http://iomou.nic.in/mobile/imosearch.php>)
